Accommodation:	Those who need accommodation due to disability or campus related activities should notify the professor during the first week of class.

I look forward to working with you.

Together, we will make this class enjoyable and productive!

Student Learning Outcome(s):

*Evaluate real-world situations and distinguish between and apply linear and quadratic function models appropriately.

*Analyze, interpret, and communicate results of linear and quadratic models in a logical manner from four points of view - visual, formula, numerical, and written.

*Demonstrate an appreciation and awareness of applications in their daily lives.
